Biofeedback CEU Coursework

A three-part teleconference course, entitled: "Talking Biofeedback In and Outside Your Practice" will be offered to help those members attain their CEU renewal credits. It is 12 CEUs, consisting of 5-part homework essays, class outline and 2-page list of phrases, terminology and more.

This class is open for ALL biofeedback practitioners, regardless of the device they work with in their practices.

NTCW now A4C

NTCW is changing their name to Academy 4 Coaching. This should help with some of the confusion between NTCW and NTCB. The websites and coaching material are starting to be changed. Therefore, some of the pages already have the new heading. Our new email address is admin@academy4c.com. All of our old email address will stay in effect. At this point the links to the coaching material are the same. When they do change, the old links will go directly to the new pages.

Vibrational Raindrop Coursework Changes

Attention CARE Instructors: Since VRT has changed so much since July 2011 (and continues to develop and evolve), Dr. Stewart thinks it is better for VRT to be released back to AromaSounds to consolidate and strengthen Dr. Bond's training pathways. Dr. Stewart acknowledges Christi Bonds-Garrett as the originator of VRT and will support her in developing the VRT program. And AromaSounds will continue to endorse the CARE Program (Intensive) as truly the best option for prerequisite to begin the AromaSounds VRT and RH training pathways!

CARE has been teaching the initial "seed" class of VRT as Christi released it in July 2011 at Summit. That was a long time ago, especially in terms of the evolution of this program! The initial course has evolved into a better training which takes 12 hours and teaches much more information about planetary influences, sound intervals, and the safe use of these tools in combination. The full AromaSounds Raindrop Harmonics and VRT program now includes multiple systems of frequencies (Planetary, Sacred Solfeggio, Pythagorean) with additional training in reflex systems such as auricular, chakras, reflexology with modalities such as gemstones and color light.

A few of you have continued using the planetary tuning forks and/or are teaching the 9-hour CARE introduction to VRT (planetary) class. As soon as you have taught the VRT classes you now have scheduled in the next 3 months (through April 30, 2014), you will no longer be authorized to teach VRT as a CARE Instructor. Instead, you will be enabled to teach the AromaSounds VRT Planetary Classic class, and you may actually be able to teach more classes. Read on. . . .

Coaches: If you would like to continue to teach the AromaSounds VRT Planetary Classic, you may move laterally into the AromaSounds program. It involves 3 more hours of class time so you would need a little bit of further tutoring and PowerPoints for your use. This can be done at no cost (FREE) via Webex Webinar! You would then receive a designation from the NTCB of CVRT-PC (P is for Planetary, C is for Coach), and your scope of practice would be to teach the Planetary Classic course, which is a 12-class hour course worth 15 CE credits (3 case studies which the students give you will make up the additional 3 hours).

If you wanted to teach some of the other classes (Bible Oils, Planetary Body Systems, Sacred Solfeggio, Pythagorean Classic, etc.), you would be most welcome to train in the material! Indeed, some of you may already be qualified to teach these additional classes, but would need to talk with Christi about it. So this lateral transition of your VRT certification from CARE into AromaSounds should expand your scope of practice and opportunities to teach about frequencies and tuning forks! Plus the Coach (instructor) Certification comes directly from the NTCB and not from AromaSounds. As a result, there will not be any required annual dues or meetings with AromaSounds. You will only need to fulfill the NTCB renewal requirements (which you are already doing). As far as equipment is concerned, VRT Coaches will continue to receive 25% discount on AromaSounds tuning forks.

Specialists: If you are a practitioner of VRT but do not teach it, you may simply continue to be a Certified Specialist of VRT. Right now you have either the designation of BCVRS from the NTCB, or you put a (v) behind your Care Instructor initials, such as CCI(v). SCCI(v), or FCCI(v). This second designation comes from CARE. **For the sake of future clarity, both of those designations will be eliminated** and instead will become CVRT-P, showing that you are a Specialist in Planetary VRT from AromaSounds but through the NTCB. Hopefully, you would want to take some of the additional classes in applications of your tuning forks, or even using other systems of tuning forks. When purchasing equipment, VRT Specialists will receive 15% discount on AromaSounds tuning forks.

Here's what you need to do next: If you are affected by this transition, please contact Mer and Christi (drbondsgarrett@msn.com) as soon as possible. If you have not done so by April 30th, we will assume that you are no longer interested in teaching VRT in any form. The goal of this transition is to be inclusive, and we want to include everyone who wants to be part of the larger VRT community!
